CONTRACTS

- Staff can have multiple contracts with different start and finish dates
- Select Staff - when staff with multiple contracts are selected, a pop up screen appears and the appropriate contract is selected
- A new column in Allocate Staff - "B" located beside "Start Time" flags when a staff member's contract terms have been breached
- By clicking on the breach flag the contract breach is displayed
- RHS click on staff name shows contract details
- History tab displays hours worked for each contract and the work history combined for all contracts
- Staff Transaction Log in "Audits" on Launchpad

ROSTER

- Casual and agency staff appear in red
- Staff with multiple contracts can be rostered on multiple lines of the roster
- Contract breach Alert pop up and highlighted in red
- RHS click on staff name (staff notes), new format of display
- Additional tabs on staff notes - Contract details / Staff preferences
- ½ day leave – cell shaded pale blue / worked shift in cell
- Comment function can be used for multiple staff
- Default roster codes, leave code and comments all in same drop down list
- Totals added to tabs at top of roster
- Ability to print all roster tabs at top of roster
- Ability to print roster on A3 paper

LAUNCHPAD

- "Manage Favourites" - ability to set up a group of favourite reports.
- "Staff Search" - ability to find staff for a selected day

SECURITY

- New features allowing customised Security Profiles

All this coming to you soon!!
